(Refer to instructions on the back)

INSTRUCTIONS

1. Application for this permit should be made by whoever will actually do the work, whether it be the owner or a contractor.
2. Mailing address of applicant.
3. State fully and completely the type of installation, type of construction, width, thickness, drainage data, etc. where applicable.

If a pole line, giving the following information: number of poles, total length of line, type of wire, character of service, vertical clearance over the roadway, and voltage if power line.

If a pipeline or buried cable, give the following information: type of service, size, and length of line, depth of trench, kind of pipe (sewer, gas, oil, water supply, etc.) or conduit. All transverse underground utilities must be placed under the pavement by boring. All fluid lines require encasement with suitable material. The size and length of encasement shall be satisfactory to Escalante City.

4. Give distance from geographical point such as intersecting highways, and city limits.
5. Attach two (2) copies of a plan showing proposed locations of structures with references to pavement and right of way lines. If installation crosses the highway, show cross section of present roadway and proposed installation. Identify the location of other utilities that may be in conflict.
6. Give anticipated dates for beginning and for completion of proposed installations.

NOTE: A fee of twenty dollars (\$20) will be charged for all Right of Way Encroachment Permits, This permit fee shall be submitted with the application.
